

COLLEGE DEGREE LOGIC PUZZLE

Print out this brain puzzle and use the table to solve it.

Each box represents a possible answer. Find the right combination of rows and columns.

When you find a box that can't be an answer - mark it with an "X".

When you find a box that is an answer - mark it with "✓".

STUDENT	COLLEGE	SUBJECT	CLASS

Story:

5 students passed their final degree examination in different subjects.

Find out which college each was enrolled in, the subject in which each was enrolled and the marks each student obtained.

Clues:

- One girl was studying Archaeology: the other was at Charterhouse College
- The student from King Alfred's who was graduated first of his class was not Gordon, the Classics student.
- Lawrence got higher marks than the Maths student, who didn't pass their final exam.
- The Economics student came third in his class.
- The biochemist studied at Canterbury College.
- Sally's marks were lower than those of the student from St Mark's.
